Differences Sudoku

Place a digit from 1 to 9 into each of the empty squares so that each digit appears exactly once in each of the rows, columns and the nine outlined 3x3 regions.

A number between two cells indicates the difference of the numbers in these cells. A number between four cells indicates the difference between two diagonally adjacent cells, either top left + right bottom (\) or top right + bottom left (/). If one of the characters is specified the apex of the angle points to the smaller of these numbers.

8 6	2	5	9	1	7	6	4	3
9 8	3 1	4	3	6	8	2	7	5
\:	3\2 6	<u>3</u>	4	2	3\(5		י 9 צ	3 1
