

## Neighbourship Sudoku

Place a digit from 1 to 9 into each of the empty squares so that each digit appears exactly once in each of the rows, columns and the nine outlined 3x3 regions.

A number in a squared cell indicates how many different numbers the four diagonally adjacent cells contain. A number in a circled cell indicates how many different numbers the eight orthogonally and diagonally adjacent cells contain.

(Solution)

|             |              |              |             |             |             |             |             |             |
|-------------|--------------|--------------|-------------|-------------|-------------|-------------|-------------|-------------|
|             |              |              |             | 6           |             | 8           |             | <div></div> |
|             |              |              |             |             | <div></div> |             |             | <div></div> |
|             | 5            | <div></div>  | 8           | <div></div> | 4           | 1           | 2           |             |
|             | <div></div>  |              |             | 8           |             |             |             |             |
|             |              | 5            |             | <div></div> |             |             | 3           |             |
| 2           |              | <div>4</div> | <div></div> |             |             |             | <div></div> |             |
| <div></div> | <div></div>  | <div></div>  |             |             | 1           |             |             |             |
| 7           | <div>8</div> | 1            | <div></div> |             | <div></div> |             |             |             |
|             |              |              |             |             |             | <div></div> |             |             |
